# Designed for living, *made to last.*

Welcome to the Pandox 2027 Collection: twenty-three new signature designs across sofas, modern chairs and beds, produced in a limited run of 1,500 pieces. Each design starts with comfort and ends with craft: solid timber frames, hard-wearing fabrics and warm, natural colours chosen to suit sun-filled West African homes as well as modern apartments, hotels and offices.

On the following pages you will find every piece photographed twice, once in its signature setting and once in an alternative finish, together with dimensions, materials and the full colour palette available to order. Custom sizes and fabrics are available on request in our showroom.
